### **PACKING OF EXHIBITS**

#### **A. Protection against Damage and Weather Conditions**

As the exhibits are repeatedly loaded and unloaded during transportation, shipping hazards such as shocks, bumps and vibration are inevitable. Moreover, exhibits will be placed outdoors many times, including open-air storage areas at the event venue before and after the exhibition. Therefore, exhibitors must take all necessary precautions against damage and weather, as the exhibitor alone shall be responsible for any damage incurred. This is especially true when return exhibits are repacked with used packing materials (flimsy cases, as well as packing materials like aluminum foil, plastic covers, etc., are very often damaged during the unpacking process).

#### **B. The Case**

Your shipping case must be strong enough to avoid damage during transportation to and from the event. We do not recommend cardboard cartons of any kind for valuable or delicate equipment.

### **ADDITIONAL SERVICES**

For additional services not listed in manual, an individual quotation will be given upon receipt of specific requirements. Tariffs and forms are below.

### **Outbound Shipping**

All shipments will be sent back to the return warehouse in Austin Texas for pick-up by your chosen courier unless a direct from show appointment has been made with the FNTECH shipping department. It is the responsibility of the Exhibitor to prepare each package with all necessary labels, postage, and customs documents before leaving the show floor.

Items sent to the return warehouse will be available for pickup starting on Tuesday May 3<sup>rd</sup>.
